This journey is a 610 kilometres touring route through Southern New Zealand. An array of natural and cultural attractions laid out one after the other – wildlife viewing, short walks, biking, fishing, hunting, boating, camping, tramping and caving – making it an ideal drive for those with time to explore.

Alternative inland roads provide a more direct path between the main centres, however the Southern Scenic Route is a journey that allows access to deserted beaches, lush rainforest, pristine lakes and stunning mountain vistas.

Soak up the history of early Otago and witness the region's stunning scenery as you wind along the Clutha Mata-au River. Explore the stunning riverside scenes of the Teviot Valley between Lake Roxburgh and Lawrence.

The trail is set to get even bigger and better, with the route being extended to 136 kilometres all the way to Lake Waihola from March 2023.

Afterwards, rest up in Lawrence, Otago's original gold town. Stroll around this quaint spot with its proud history and wonderful architecture and follow in the steps of Chinese gold miners and pioneer settlers.

Wildlife

On the southern coast of our district is The Catlins, where you can meet hoiho, the world's rarest yellow-eyed penguin, and kororā, the world's smallest penguin. Visitors can view these amazing animals from many vantage points, enjoying their natural habitat. Plus you may get to see the planet's most endangered sea lions, fur seals, and the world's smallest dolphin.

Many of our district's wildlife are facing rapid decline, so please respect their natural habitat, do not approach them, and keep dogs on a lead.
