

What is a Business Walkthrough?

A business walkthrough is a short visit to a workplace. It gives you the chance to see how things work, meet the team, and get a feel for what it's like in a certain job or industry.

You won't be doing any work – just observing and asking questions. It's a great first step if you're curious about a career but not sure where to start.

What can you expect?

- A tour of the workplace
- A chance to see the job you're interested in
- Time to ask questions
- A feel for the day-to-day environment
- Insight into what the job involves

Who is it for?

- Students exploring job options
- Job seekers thinking about a new direction
- Anyone curious about a workplace or industry

Why it's helpful:

Sometimes it's hard to imagine what a job is really like until you see it. A walkthrough can help you decide if it's something you'd enjoy – or help you discover something new you hadn't thought of before.

Tip:

Even though it's just a visit, make a good impression – you never know where it could lead!
